NO 103.

## COAST CLIPPINGS.

There is talk of a paper factory in Montana.

Indications of a tin mine have been discovered near Santa Fe, N. M.

Mining has fairly begun at the hydrocarbon claims of Southern Oregon.

Virginia City, M. T., mines, have at an estimate yielded over \$80,000,000.

There is six feet of snow on the summit between Carson and Lake Bigler.

Sailors are again reported scarce in San Francisco, and several ships are lying in the stream loaded, unable to sail for want of crews.

A Postoffice has been erected at Washoe, Lyon county, on the line of the Carson & Colorado railroad, with James H. Shark Postmaster.

During the last year money orders were issued from the Virginia Post-office to the extent of \$107,669 11.

Some specimens of ore that pay at the rate of \$20,000 or more a ton were found lately on the 350-foot level, north of the Nevada City mine, Nevada county.

Over 100 head of cattle belonging to the Cochran Ranch Company, on Bow river, M. T., have been killed by Blackfoot Indians within the past few weeks.

John Berry is to be hanged at Prescott, A. T., on February 2d, and H. Hall, for the murder of Bishop on November 25th last, will be hanged February 10th.

There are 15,000 acres of land within the limits of San Carlos Reservation, A. T., which can be irrigated. About 1,000 acres have been brought under cultivation.

The ship Ogwen, which arrived in San Francisco harbor Friday, from Cardiff, reports that she saw the spars of a large vessel sunk in Creton bay, Wollastonia island.

The rare and beautiful Epiphyllanthus, Philopeltis Schilleriana and P. Amabilis, are in flower in the Golden Gate Park conservatory, San Francisco, and the coffee tree is in fruit now.

California will elect this Fall, a Governor and other State officers, five or six Congressmen, Judges of the Supreme Court, Railroad Commissioners, forty Senators, eighty Assemblymen; also, all the county officers of the State, including those of San Francisco.

According to the Los Angeles Times, Messrs. Boyd and Page had discovered in the Holcombe Valley, San Bernardino county, the "Great Black Lead" which has been so anxiously searched for during the past few years. They have offered the Holcombe Valley Gold Mining Company \$25,000 cash for their mill and property, with which to develop the ore in the new "find," but the company ask \$150,000.

Last Friday two vehicles collided on Market street, and the horse belonging to one reared, and was caught and suspended over the back of the other horse. He got his hind legs entangled in the wheels and his body was wrenched in a sickening manner. He screamed with pain, the blood flowing from several severe wounds. It was some time before the horses were extricated, and then only by aid of an ax.

### TRUTH ATTESTED.

Some Important Statements of Well-Known People Wholly Verified.

In order that the public may fully realize the genuineness of the statements, as well as the power and value of the article of which they speak, we publish herewith the fac-simile signatures of parties whose sincerity is beyond question. The truth of these testimonials is absolute, nor can the facts they announce be ignored.

Moline, Ill., July 14, 1881.

H. H. Warner & Co., Rochester, N. Y.

GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure has been used by both my wife and myself. The result is "in general principles," as a system and liver regulator, I took the medicine for a long-standing liver trouble, which has been the source of much inconvenience, and which failed to yield to the doctor's remedies, or any other, until I used your Safe Kidney and Liver Cure. We both unite in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

Very truly yours,

Edw. M. Whipple

Mayor of Moline.

CHICAGO, May 30, 1881.

H. H. Warner & Co., Rochester, N. Y.

MY DEAR SIR: From several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested I have not known what it is to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief, I tried your remedy, and in a few days I was free from all my troubles. I feel as well as I can today.

Very truly yours,

Chas. Harris

### THE CENTURY MAGAZINE, (SCRIBNER'S MONTHLY.) FOR THE COMING YEAR.

With the November number began the new series under the title of THE CENTURY MAGAZINE, which will be, in fact, a new, enlarged and improved SCRIBNER'S MONTHLY. The page is somewhat longer and wider, admitting pictures of a larger size, and increasing the reading matter about

FOURTEEN ADDITIONAL PAGES.

The following is a summary of the leading features of the new series for the year:

A New Novel by Mrs. Burnett

author of "The Lady of the Lake," etc., entitled "Through One Administration," a story of Washington life.

Studies of the Louisiana Creoles by Geo. W. Cable, author of "The Grandissimes," a series of illustrated papers on the traditions and romance of Creole life in Louisiana.

A Novel by W. D. Howells (author of "A Chance Acquaintance," etc.), dealing with characteristics of American life.

A History of Modern Sculpture, by Mrs. Lucy M. Mitchell, to contain the finest series of engravings yet published of the masterpieces of sculpture. There will also be papers on "Living English Sculptors," and on the "Young Sculptors of America," fully illustrated.

The Opera in New York, by Richard Grant White. A popular and valuable series to be illustrated with wonderful completeness and beauty.

Architecture and Decoration in America, will be treated in a way to interest both householder and housewife, with many practical as well as beautiful illustrations from recent designs.

Representative Men and Women of the 19th Century. Biographical sketches, accompanied by portraits, of George Eliot, Robert Browning, Rev. Frederick W. Robertson (by the late Dean Stanley), Matthew Arnold, Christina Rossetti, and Cardinal Newman, and of the younger American authors, Wm. D. Howells, Henry James, Jr., and George W. Cable.

Scenes of Thackeray's Hawthorne's and George Eliot's Novels, according to the illustrated series on the scenes of Dickens' novels.

The Reform of the Civil Service. Arrangements have been made for a series of able papers on this pressing political question.

Poets and Poetry in America. There will be studies of Longfellow, Whittier, Emerson, Lowell and others, by E. C. Steadman.

Stories, Sketches and Essays may be expected from Charles Dudley Warner, W. D. Howells, Mark Twain, Edward Eggleston, Henry James, Jr., John Muir, Miss Godeau Cumming, H. H. Van, W. Cable, Joel Chandler Harris, A. C. Redwood, P. D. Mitchell, Noah Brooks, Frank R. Stockton, Constance F. Woodson, H. B. Boyesen, Albert Stickney, Washington Gladden, John Burroughs, Parke Godwin, Thomas Slavin, Henry King, Ernest Ingersoll, E. L. Godkin, H. W. Washburn, and many others.

One or two papers on the adventures of the Tit Club, and an original Life of Benbow, the conqueror by Anstis Dubois, are among other features to be later announced.

The Editorial Departments throughout will be unusually complete, and the "World's Work" will be considerably enlarged.

The price of THE CENTURY MAGAZINE will remain at \$4 per year (\$5 for a number). The portrait, (size 2 1/2 x 7) of the late Dr. Holland, issued just before his death, photographed from a life-sized drawing by Wyatt Eaton, will possess a new interest to readers of this magazine. It is offered at \$5 retail, or together with THE CENTURY MAGAZINE for \$6.50.

For sale by all bookstores, or by mail, and by book-sellers and news-dealers everywhere.

### THE SUN.

1882. NEW YORK. 1882.

THE SUN for 1882 will make its fifteenth annual revolution under the present management, shining, as always, for all, big and little, mean and gracious, contented and unhappy, Republican and Democratic, depraved and virtuous, intelligent and obtuse.

The Sun's light is not for mankind and woman-kind of every sort; but its genial warmth is for the good, while it pours hot discomfort upon the blistering backs of the persistently wicked.

The Sun of 1882 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, succinct, unconventional way, all the news of the world, omitting no event of human interest, and commencing upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of THE SUN. It effected a permanent change in the style of American newspapers. Every important newspaper established in this country in the dozen years since the first issue of THE SUN, has been modified and bettered by the force of THE SUN'S example.

This Sun of 1882 will be the same outspoken, truth-telling and interesting newspaper.

By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before.

We shall print all the news, putting it into readable shape, and measuring its importance, not by its traditional yardstick, but by its real interest to the people. Distance from Printing House Square is not the first consideration in THE SUN. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or Bohemia.

In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. This habit is the only secret of THE SUN'S political course.

THE WEEKLY SUN gathers into eight pages the best matter of the seven daily issues. An Agricultural Department of unusual merit, full market reports, and a liberal proportion of literary, scientific and domestic intelligence, are features of THE WEEKLY SUN.

Who does not know and read like THE WEEKLY SUN, the number which is a collection of interesting literature, with the best poetry of the day, prose every line worth reading, and a number enough to fill a good-sized book, and infinitely more varied and entertaining than any book, big or little? If our idea of what a newspaper should be please you, send for THE SUN.

Our terms are as follows:

For the daily SUN, a four-page sheet of twenty columns, the price is \$10 a year, postage paid.

The price of THE WEEKLY SUN, eight pages, fifty-six columns, is \$1 a year, postage paid.

For a copy of THE WEEKLY SUN, we will send an extra copy free.

**SLOW BUT SURE.**  
 Guiteau cannot be hung before July, and it is quite likely that July 2d, the anniversary of Garfield's assassination, will find the murderer alive. The judges decided that they could not postpone the term of the Criminal Court, which commenced on the 23d. inst., for it was evident that such a postponement would have raised a technical complication in the Guiteau case which it was desirable to avoid. The law of the United States applicable to the District of Columbia provides that in the event of a prisoner being found guilty of murder, he shall not be hung until thirty days after the expiration of the next term succeeding that at which he may be sentenced. Guiteau has been convicted, but he cannot be hung until thirty days after the end of this term of the Court, which ordinarily would end about June 1st, the date on which the judges of the Supreme Court adjourn on account of the hot weather to take their annual vacation. Thirty days, therefore, after June 1st, is the earliest date when the sentence can probably be executed.

M. G. Elmore is Superintendent of the Tucson Gas Company. He is now erecting works and laying four miles of main pipe. Elmore's large experience on this coast in dispelling darkness by means of gas, is a guarantee of the work he will do for Tucson. The Palace and Baldwin works in San Francisco, and the cities of San Diego, San Bernardino and Benicia have engaged his attention since he built the Reno works.

**A Brutal Family.**  
 The village of Rock Falls is in somewhat of an uproar because of a man and woman named Seymour having starved and otherwise brutally mistreated the seven-year-old daughter of Mrs. Boller, whose husband is in an insane asylum. The little girl was working for the Seymours, but now has been taken away and is under a physician's care. Twenty or thirty people last night visited Seymour for the purpose of lynching him, but he escaped with his wife, and diligent search failed to discover them. The methods of cruelty employed upon the innocent child are too diabolical for mention.

**Pleased With His Visit.**  
 SALT LAKE, January 31.  
 Governor Murray returned to-day from Washington fully sustained by the Administration. He is very hopeful of the work which Congress proposes to do for Utah, and while in Washington he urged Congressmen to pass the bill appointing a Legislative Commission in place of the present polygamous Legislature, which will govern Utah the same as the District of Columbia.

**Settled for a Time.**  
 SAN FRANCISCO, January 31.  
 A. A. Cohen and J. P. Hoge, Council for the City of Oakland, withdrew the answer of their client yesterday in the suit of C. P. Huntington, vs. the City of Oakland, and filed a disclaimer, signed by the Mayor and council. This brings the water front litigation to an end for the present.

**He Hunted a New Pasture.**  
 SAN FRANCISCO, January 31.  
 G. J. Codes committed suicide near the Central House in Butte county Sunday by shooting himself. He left a letter saying that he wished to go to the other world, where there was no rapacity and cheating.

**Accidentally Killed.**  
 SAN FRANCISCO, January 31.  
 William Moffatt, while hunting near Comanches, Calaveras county, on Sunday, was killed by the accidental discharge of a gun in the hands of Knox Thorpe, a companion.

**Completed.**  
 The Auburn Con. G. M. Co's mill at Dun Glen is completed and will soon start up.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.  
**EASTERN.**  
**A NEW YORK FIRE.**  
 The "Times" Building in Great Danger—Loss will be Very Heavy.  
 NEW YORK, January 31.  
 A fire reported as breaking out in the Times office originated in the building formerly occupied by the New York World, in the same block with the Times building, but separated from it by an intervention building. Strenuous efforts are making to save the Times, but the fire is spreading rapidly, and it is feared it cannot be controlled short of the corner where the Times office is located. There is an unconfirmed rumor of the loss of several lives. Ambulances are on the spot. There is a straight snow falling but the air is dry and crisp, with a light breeze from the north, which increases the difficulty of controlling the fire. The block in which the fire is burning is an irregular shaped gore, with a building formerly occupied by the World on its south side and the Times building occupying the entire northern gore. The Tribune office is diagonally across Nassau street from the Times office and the Sun office is on the upper corner of the same block with the Tribune. The fire has been burning furiously for an hour, taking hold of the tops of the buildings and sending up large masses of flames. The following note has been sent to the Associated Press: The New York Observer has been burned out and this week's issue will be delayed. The Observer office was at 37 Park Row, in the old World building. There were a large number of offices in that and adjoining houses. In one of these offices there were a number of women employed, and it is reliably asserted that one woman fell or leaped from the roof of Pettingill & Co.'s advertising office and was killed. There are rumors that other women are being burned in the office, but these cannot be verified. The pecuniary loss will be very heavy.

At 11 o'clock the southern end of the gore fell in a mass of ruins, but it is now thought the Times will be saved, though the danger is not over.  
**[SECOND DISPATCH.]**  
 NEW YORK, January 31.  
 The Times office is burning, and the flames are raging furiously, and no doubt the building will be a total loss.  
**[THIRD DISPATCH.]**  
 CHICAGO, January 31.  
 The Times building is saved, but considerably damaged. The flames are confined to Beckman street and Park Row, at the corner of the block. Only one life lost, that of the woman already referred to.  
**[FOURTH DISPATCH.]**  
 CHICAGO, January 31.  
 It is stated that four bodies were recovered in Nassau street of persons killed by jumping from the windows. It is feared the loss of life will be heavier than at first believed. The building was crowded with employees and very few could have escaped by the stairway. An old gray-haired woman was seen in the fourth story of the World building appealing for help. Her life was seen to move, but her voice could not be heard. All who saw her were horror stricken. The flames raged about her person igniting her hair and clothing. She fell back into the flames and was not seen again.  
 A young girl wearing a blue dress, who was cut off from the stairs, ran to the fourth story window on the Park Row side, and stood hesitating while the flames and smoke encircled her. "Jump," "jump!" shouted the spectators. Casting a frightened look below, she threw herself out and fell on the stone pavement. When picked up life was extinct, her head being crushed beyond recognition. A few moments later a negro woman appeared at a third story window of the World office, on the Park Row side, and also jumped to the sidewalk. She was badly injured, and taken to the Chamber street Hospital.  
 Several men and women saved themselves by leaping from windows into Nassau street. When the woman who was killed jumped from the window, there were two men hanging from the window sills by their fingers' ends. A ladder too short to reach them, was put up, and they were finally saved by firemen mounting on one another's shoulders, and the men let themselves down by their aid.  
**Want Their Money.**  
 NEW YORK, January 31.  
 The Herald's Paris special on the failure of the Union Generale bank, says an immense crowd collected outside the offices in Rue De Antin at 2 o'clock yesterday afternoon clamoring loudly for restitution of their deposits. A meeting of shareholders will be called in a few days to consider the affairs of the bank.

**Ordered Home.**  
 WASHINGTON, January 31.  
 Secretary Hunt, in answer to a message from St. Petersburg to the effect that Dannehauser, together with nine men of the Jeannette, were at Irkutsk awaiting orders, telegraphed for them to return to the United States, and for Melville and party to continue the search for De Long and party.

**Rescued From Death.**  
 William J. Connelley, of Somerville, Mass., says: In the fall of 1871 I was taken with symptoms of a severe cold, followed by a severe cough. I lost my appetite, and was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. Williams' Pink Pills for Pale People. I commenced to feel better, and to-day I feel better than for three years past. I write this hoping some one afflicted with Consumptive Lung will take Dr. Williams' Pink Pills for Pale People. I am convinced that CONSUMPTION CAN BE CURED. I can positively say I feel more good than all the other medicines I have taken since my sickness.

**One Experience From Many.**  
 "I had been sick and miserable so long, and had caused my husband so much trouble and expense—no one seemed to know what ailed me—that I was completely discouraged and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said, 'Herrera for Hop Bitters! long may they prosper, for they have made mother well and us happy.'—THE MOTHER.

**Feeble Ladies.**

**Read It.**  
 Oh! it takes so much to clothe my family; my savings soon disappear; I am making no bank account for my old age! Very well, my friend, you may be like Francis, paying too much for the while. Let us volunteer a word. Perhaps you don't keep yourself posted, and unnecessarily pay two prices for what you buy. A kind of wearing material, you should know, are very low. One cent, invested in a postal card and sent to the Red House Trade Union, of Sacramento, will name and address a person, who will insure you in return a complete price-list of everything the name, the price and true value. The house always carries a special line of extra weight goods in suits, overalls, jumpers, etc., manufactured expressly for miners, ranchers, mill men, etc.; miners' boots in hob, nail and rubber; heavy calf and waterproof kip boots, manufactured expressly for use on this coast. This house makes a special line of clothing orders. They have a department \$4.00 expressly set up for this purpose—not on paper, as so many are. Send for their price-list. It will be money for you. Address: jan13m1 RED HOUSE, Sacramento.

## Complimentary Benefit.

The following excellent programme will be rendered at the benefit concert of Prof. Stimson, to-morrow (Wednesday) night, at the Baptist Church. This will undoubtedly be the finest entertainment ever given in Reno:

## PROGRAMME—PART I.

Glee Chorus—"The Winds Flurriedly Blow"  
Piano Solo—"Golden Youth" (Galloped de Concert)  
Miss Minnie Scott, pupil of Mr. Stimson.  
Contralto Solo—"Scenes of Happiness" (Haymakers)  
Root Miss Flora Finlayson.  
Duet—"Teacher and Pupil"  
Mrs. Stoddard and Mr. Stimson.  
Soprano Solo—"Waiting For The Loved One"  
Mrs. Stoddard.  
Duet—"Sweet Morn; How Lovely!" (Haymakers)  
Mrs. Stoddard and Flora Finlayson.  
Trio Solo (concert and drum)—"Yes, Let Me Like a Soldier Fall" (Maritana)  
Wallace Mr. John Nicholas.

## PART II.

Piano Solo—"Fra Diavolo" (Fantasia Brilliant)  
Miss Alma Smith, pupil of Mr. Stimson.  
Contralto Solo—"Down by the Gate"  
Mrs. R. P. M. Greely.  
Quartet (obligato) and chorus—"Sweet After Toll" (Haymakers)  
Root Mrs. Taylor and Greely, Messrs. Nicholas and Lindsay.  
Soprano Solo—"No Tongue Can Tell"  
Miss May Tombs.  
Quartet—"The Festive Dancers"  
Messrs. Dillman, Cook, Sands and Nicholas.  
Basso Solo—"The Hour of Sweet Romance"  
Mr. M. S. Lindsay.  
Duet—"Bernadine and Dream Song" (Haymakers)  
Mrs. Stoddard and Mr. Nicholas.  
Trio and Home Chorus—"When Wandering Over The Deep" (Haymakers)  
Root Mrs. Bell, Mrs. McRae, Mrs. Stimson, and chorus.

## The Snow.

Last night's wind terminated in a snow storm this morning. Again the merry sleigh bells can be heard. The copper-colored natives of the sagebrush hide his sorrow beneath his greasy blanket curled up like a half-open jack-knife, and will only move from your door-step with a grunt when mildly shoved off by the lady's broom.

## A Good Idea.

J. L. McFarlin has written below to see if he can get a coupling suitable to attach to the cistern supply pipe in such a way that hose-men can run a line of hose to a fire, and have water immediately, whether the engine is ready or not. It will answer every purpose of a fire plug.

## Inventory.

C. J. Brookins, who was insured in the London, Liverpool and Globe Company is straightening out his goods on the east side of Virginia street, preparatory to an inventory. The agent of the company is in town adjusting the loss.

## FIRE MATTERS.

What Some of the Business Men Have to Say—How to Remedy the Difficulty.

The GAZETTE has called the public attention to the condition of the Reno Fire Department in the hope that the citizens would awaken to their own interest and endeavor to have a fire company. Reno has had her share of property destroyed by fire, and her business men are not in a financial condition to stand another conflagration like that of March 24, 1879. The GAZETTE, knowing that the town is absolutely without protection in an emergency like that, has endeavored to have some action taken. The other papers have been filled with slandering drive under the head of "Communication," but not an idea has been advanced nor a remedy suggested. The GAZETTE gives below the ideas of several prominent business men and firemen, and with one exception they all agree that something ought to be done. Read what they say:

J. L. McFarlin, one of the Fire Trustees, thinks the only way to have an efficient Department is for the city to have two horses to haul the steamer and from fires, and to have eight or ten men to manage the engine and hose, and pay them a salary of \$5 or \$10 per month for their services, and to let the hand engine be kept where it can be got at if needed, but not try to keep up an organization of two companies. He thinks it is asking too much of men to work at fires, destroying their clothing and endangering their lives, without some little compensation.

T. K. Hymer, another member of the Board, thinks that something ought to be done. He says the Department as it now stands is not in a condition to handle much of a fire. His idea is for the Trustees to appoint a committee and find out how many of the citizens would agree to join a company and attend the meetings and assist at fires. Mr. Hymer is of the opinion that it would be well to employ a man to act as steward and engineer at a salary of \$50 or \$100 a month, to devote all of his time to fire business, making it a part of his duty to see that the cisterns are filled with water and that the water mains are always in order. He does not think that the town is able to expend over \$100 per month for fire services.

Hank Rhodes, an experienced fireman, favors the organization of two companies, of 60 men each—one to handle the steamer and the other to take charge of the hand engine—and to pay each active member \$1 per month for his services. He thinks two companies could be organized and the interest in fire matters worked up so that the Department would be able to handle any fire that might start.

Gus Lewis, one of the oldest firemen on the coast, and for seventeen years Foreman of a company, thinks that property could be better protected by organizing a company of thirty men for the hand engine, and pay them \$1 per month each, and buy two horses to move the steamer with, have them stabled in the engine house nights and work them on the streets days, and in that way the horses would earn their feed, and at the same time the streets would be kept in good condition. He thinks ten men with the steamer, if they had horses, could be found who would gladly do active fire duty when occasion required, for \$1 per month each. His idea is to have two companies with two sets of officers.

Herman Thyes, one of the officers of the late company, and a good fireman, thinks a company of volunteers could be organized. His idea is for the Fire Trustees to appoint a committee and instruct them to go and see the business men and property holder, and find out how many will agree to do their part to maintain a fire department by attending the meetings, and doing their share of work at times of conflagrations. Mr. Thyes added, however, that the little selfish jealousies that had always been manifested in the company management, by everyone wishing to have his own way, would be a great drawback to the successful organization of any kind of volunteer department, and said it would go on as it is now until another black chapter is added to Reno's history.

H. L. Fish is in favor of having a paid department. He thinks ten or twelve men under pay would do more good than any volunteer department that could be organized.

Jerry Schooling wants a paid Department. He is in favor of calling a citizen's meeting and having a general talk, letting all who are interested

give their views and come to some understanding. He thinks it would be the better way to levy a tax of 1/4 of one per cent., and have a Department that can do something.

Harry Fogg, the third Trustee, said the Board had the interest of property holders at heart, and was doing all in their power to protect property. The cisterns we are putting in now, said Fogg, are small, but they have a five-inch supply pipe, which, if the water-works are all right, make it impossible to pump them dry. He thinks the company is as able to successfully fight fire now as it ever was. Mr. Fogg says the company's President, T. K. Hymer, is acting foreman, and that Hymer has good and ready assistants in the other members of the Board, to wit: Chas. Knust, J. B. Williams, J. L. McFarlin and Mr. Fogg himself. He doesn't see where any improvement can be made for the present. He does not think the people are able to go to any more expense just now.

Charles Knust is one of the Trustees, and says we have no company, and thinks one ought to be formed, providing the citizens will take interest enough in the matter to attend. He thinks a tax of one-half of one per cent. ought to be levied and a paid Department organized. Buy two horses, and employ not less than six men at a salary of about \$10 per month, besides an engineer and steward, and with what help the citizens will render, he thinks would make an efficient Fire Department. He suggests that it would be well for local insurance agents to take some interest in fire matters and prove to the firemen that their services are appreciated. He thinks that the chairman of the Board of Fire Trustees ought to call a meeting of the citizens immediately and take measures to effect some kind of an organization. He realizes the fact that the Department is in a deplorable condition now, and fully realizes the danger the town is in from a conflagration, and thinks it the duty of the Board as well as citizens of the town to take prompt action in the matter. The fire Saturday night, says Mr. Knust, and the fortunate escape the town had, ought to convince every thinking man that something must be done at once. He stands ready to do all in his power to remedy matters.

Bob Buncel thinks the company is in a very bad condition and in case of an extensive conflagration would be little better than no company. He says only five or six men take any interest in the matter now, and the company has no head to direct men what to do. The consequence will be that much property will be destroyed unnecessarily if matters are allowed to go as they now are. He thinks if the tax-payers would put a shoulder to the wheel and attend the meeting turn out occasionally for drill, go to the engine and work instead of running to the burning building, that, as good a volunteer Department could be organized here as ever was in existence. Buncel thinks if the company was properly organized, and had the right kind of a man for foreman, one whom the men under him would obey, and the Sheriff and Constable would take a hand and see that the foreman's orders were carried out, it would save much valuable time and be of great benefit to the company's officers as well as the active firemen.

The GAZETTE has taken the trouble to give the views of some of the citizens, and they all have some well-defined plan to change the present condition of things. Now let the Trustees call a meeting, and let the property-holders turn out and come to some conclusion. If the citizens will pay some attention to this matter Reno will have as good a Fire Department in less than thirty days as there is in any town of Reno's size on the coast.

## Card of Thanks.

WADSWORTH, January 30.

EDITOR GAZETTE: Permit me to say through the columns of your paper that the total receipts realized from the benefit extended to me on Saturday last, January 28th, were \$63.50. I wish to add to my friends, who labored so cordially for my interest that I thank them in all sincerity and shall retain a vivid and lasting remembrance of their kindness.

Yours respectfully,  
A. T. DON TILLOW.

## THE SALT OF THE EARTH.

If Nobody Else had Salt Nevada Would be Rich.

Nevada has about a million acres of salt land, and could supply the whole earth if necessary. That is not possible, however, for it is perhaps more generally distributed over the earth than any other substance. Most of the salt used in civilized countries is evaporated from sea water. Works at Alameda make thirty thousand tons a year, and there is a large company at Santa Cruz. The great basin has salt in a dozen places. Near Silver Peak, in Inyo county there is one valley with a quarter of a million acres. Lone valley, between Silver Peak and Columbus, in Esmeralda county, has a hundred thousand acres of salt. Columbus lies right in the center of a salt marsh. Fifteen miles north of Columbus lies a salt bed of immense resources. It was taken up in 1861, and known as the Virginia Salt Co.'s works. It is now called Rhodes' Salt Marsh. It is about a mile square. Pits are sunk 40 to 50 feet in diameter and 4 feet deep. The brine rises up in them, and the salt precipitates. It is in a desolate land. The valley and hills show no sign of life. No vegetation covers the black, basaltic hills. Near the southern end of Walker lake lies Dead Horse valley, with one hundred thousand acres of salt. At the Eagle Salt Works near Hot Springs station, on the C. P. road, there are two thousand acres rich in salt. B. F. Leete took the valley up in 1870. It would easily supply the State. Fifteen miles east, at White Plains, there are salt works. At Guthrie, 75 miles south of Winnemucca, there are ten miles square of salt. This place formerly supplied Austin, and sent some to Virginia City. Sand Springs, 22 miles south of Stillwater, was opened in 1863. Mr. Allen, of Reno, owned it once, and sold to E. E. Wightman, who now works it. It keeps 20 men and two teams busy. The salt is scraped up and run on cars to hard ground, half a mile from the middle of the marsh. It is 95 per cent. salt, and butchers use it to save meat. There are deep openings in the marsh with solid walls of crystal salt. They are eight or nine feet across and very deep. The bed of the marsh is hard. In wet weather the brine covers the whole basin, and leaves a rich deposit. Salt formerly went from there to Dayton and Virginia. The market of late has been Grantsville, where it brings \$7 a ton.

## Jottings.

A. J. Clark is constantly receiving the choicest of family groceries.  
Pace's Cable Coil tobacco at Nasby's Bazaar. Thermometer at 7, 9, 11, 1 and 3, was 28, 33, 32, 31, 32.

A. Lindley maintains his reputation for fair dealing, and his trade, notwithstanding the dull times, keeps up.  
At last accounts Dr. Hogan's little daughter seemed to be improving slightly, but is still in a very critical condition.

There is no questioning that animals should be cared for when sick, and Bard, a boss drayman, of Walnut street, Cincinnati, says in his long experience he has never known St. Jacob's Oil to fail in relieving the ailments and accidents to which horses are liable at all seasons of the year.

## Wilde's Judgment.

Oscar Wilde has heard of the Reno White House and Abraham Brothers received orders for two suits of their finest gent's underclothing, seventeen neckties and six dozen pair of socks. Oscar knows where to send for the best of everything, and shows remarkable judgment in covering his precious skin with goods from the Reno White House.

## The Weather.

Prof. Legate predicts a heavy snow storm in Eastern Nevada, but says it will not amount to much here. The Prof. says Nevada will have a general thaw in February, and that California will be favored with much-needed rain. He can come nearer calling the turp on the weather than any other man in this section of the country.

## Still in the Field.

Charley Brookins will open a new stock as soon as the insurance men adjust his loss. He will occupy the building next to Quinn's hardware store on Virginia street, for the present, and will soon have a full and complete stock.

## Nevada Postmasters.

The President-to-day nominated F. C. Robbins postmaster for Winnemucca, Wm. Gibson for Austin, and D. O. Adkinson for Virginia.

## HARD AT IT.

The Life of a Congressman not the Bed of Roses Country People Think.

Hon. George W. Cassidy writes pleasantly to a friend in Reno of his new life at the Capitol. He says there is a much greater amount of work to be gotten through with than he had any idea of. He has been favored, too, with an unexpected amount of responsibility and honor for a new member. Probably Speaker Kiefer was partial to him on that account. He says:

"I was placed on two committees, Mines and Mining and District of Columbia. There are several important measures before the former, but it is the latter that overwhelms a fellow. The Chairman of the District Committee was also partial to me. He assigned me to the sub-committee on street improvements, education and public charities. One-half of the people of the District want things done one way and the other half want them done some other way. And so it goes; but you are never free from those who either favor or oppose. Then there are the school people and the charity folks. They imagine that Nevada sends nothing here but bonanza kings. They laugh in my face when I tell them that I am worth a good deal less than a million. I have but one way to rid myself of them. I direct them to Senator Fair, whom I assure them, is not only a millionaire, but is *spilling* for worthy objects to make comfortable and happy. The Senator must have an army of beggarly callers. He gets all of mine and his own too. Thus I am not living in vain.

"But another word of the multifarious duties. Bills of importance to our people and State are referred in different directions to different Committees. You must get around at the night time and explain these subjects and brace them up as best you can before the several Committees. Then you must be in the House while it is in session from 12 to 5. All of these things taken in connection with a vast number of commands on the several Departments, situated a mile apart, will give you a very small idea of routine duties."

## TRAIN DITCHED.

The Virginia Express Train Thrown from the Track at Winters' Crossing—Three Indians Killed.

A special dispatch from Carson to the GAZETTE says an accident occurred to the regular passenger train from San Francisco, on the Virginia and Truckee railroad this morning. At Winters' crossing snow had drifted to a considerable depth, and the snow plow struck a plank in the crossing, throwing the locomotive and express car from the track. The engineer, (Tom Clarke), fireman, and Wells, Fargo & Co.'s messenger, were slightly injured. Three Indians riding on the tender, were killed.

The engine was thrown twenty feet from the rail on the east side of the track and partly turned round. The express car left the track on the west side, and the rear end of the car was four feet from the rail, leaving the mail car, two passenger coaches and the San Francisco sleeper on the track. These cars went on until they were stopped by the brakeman. The escape from death of engineer Clarke and his fireman was miraculous.

## Bean Day.

To-morrow will be "bean day" at Chase & Thyes. Take a nice plate of New England baked beans and Boston brown bread, with a glass of English ale, and it ought to make any one happy. Chase & Thyes do more for the hungry and thirsty than any house in the State.

## Change of Time.

The new time card of the Virginia and Truckee takes effect to-morrow. The only change affecting Reno is the departure of the morning and noon local trains. The morning train will leave at 8:35 A. M. and the other at 2 P. M.
